

Romance. Power. Influence.

An astounding reflection of you.

In 1660, Charles II crossed the English Channel to restore the monarchy and become King of England. With a grandeur befitting the occasion, he traveled by yacht.

Since that day, the yacht has held exclusive importance for those who have "arrived." Presidents, royalty, and people of influence take pleasure in experiencing life from the decks of a vessel originally designed to hunt pirates. Light and sleek, the first yachts tracked outlaws throughout the Low Countries, a fact still evident in the vessel's name – the word "yacht" means "hunt."

Adventure. Distinction. Comfort and class. It's not hard to see the allure.

Of course, over the years the yacht has adapted to the present day, as yacht builders employ new techniques to accomplish their goals. Still, even when quality is not in question, there's something about those early classic crafts, their beauty and warmth, that many modern vessels have lost.

"For the builder, classic yachts are in fact the moving materializations of his skills and emotions: he is called upon to make them speak, inspire and sing to re-create them in accordance with his own consciousness. In this way, like the designer, he is a creator, for he must have within himself those passions that he wishes to bring so intensely to life."

Stan Bishoprick,
President and founder

Legendary Yachts brings the best of the past straight into the present – an exemplary feat. When a yacht embodies the elegance of traditional designs and natural materials, the effect is both visceral and immediate. Still, while a masterly old-world aesthetic is stunning, a well built vessel needs more. It takes today's cutting-edge techniques to ensure durability, performance, and efficiency. **Legendary Yachts** harnesses those techniques, then goes further, weaving in modern comforts and needs, each tuned to a client's individual tastes. Passionate, hand-built craftsmanship is the seal – and the result? Truly breathtaking vessels.

It doesn't take an expert to feel the difference. When a **Legendary Yacht** moves into harbor, heads turn.

So, what's your dream?

Maybe it's a spacious setting where you'll entertain your friends or clients. Maybe it's your own traveling five-star resort, in which to explore exotic destinations. Or do you dream of a close, intimate space to share with another?

Dreams come true. Have a yacht hand-crafted to your vision.
